

# The Canadian Field-Naturalist

## SUPPLEMENTARY MATERIAL:

### Hiding in plain sight: combining field-naturalist observations and herbarium records to reveal phenological change

EMMA S. LEHMBERG, GRAYDON MCKEE, and MICHAEL D. RENNIE

**Figure S1.** Collections per decade for all species included in the study for both the Thunder Bay Field Naturalists (TBFN) and Claude Garton Herbarium (LKHD) datasets. Data includes all observations of species of interest, regardless of flowering status.
